THOR was established in 2015, with its headquarters located in California, USA. It is a globally leading provider of integrated kitchen solutions. THOR is sold in global supermarket chains such as WALMART, BEST BUY, HOME DEPOT, COSTCO, etc., and sells well all over the world.

THOR focuses on the research and development as well as production of kitchen cabinets and kitchen appliances. Currently, it possesses multiple product lines such as stainless steel kitchen cabinets, whole-house customization, cooking centers, range hoods, dishwashers, built-in cooktops and ovens. Thor is dedicated to offering people high-quality household products and services, creating a healthy, intelligent and tasteful lifestyle, and enabling millions of families to enjoy a happy life.

THOR has established two production bases in China and Thailand, totaling 380,000 square meters, to create a global industrial footprint. All along, THOR adheres to technological innovation and has obtained more than 300 technical patents. Its laboratory has received authoritative certifications from UL in the United States, CSA in Canada, CE in Europe and CB. With excellent performance, humanized design and exquisite workmanship, its products have won the trust and praise of a large number of consumers and have been selected as one of the top ten kitchen appliance brands by the authoritative American magazine Twice.
